

Emerging Scholars Program's (ESP) relationship with Ashley Tutors began in 2010.

In the fall of 2010, ESP, a local non-profit that provides a life-changing 14-month academic and leadership program to bright and talented 4th grade students from low-income families, was looking for the best-of-the-best instructors for its teaching staff. Ashley Tutors was highly recommended by education colleagues who had worked closely with Founder and President, Joshua Chernikoff. During the initial meeting, it quickly became apparent that ESP and Ashley Tutors shared synergistic visions and a great partnership was formed!

ESP has had the privilege of working with three highly trained and compassionate instructors from the Ashley Tutors staff. The ESP scholars bonded very well with the Ashley Tutors teachers. Each brought a sense of excellence, independent leadership, and dedication to the field of education.

ESP continues to be grateful for the ongoing partnership with Ashley Tutors and is excited for other opportunities to work with Josh and his staff.
